

# VANESSA PREMA

FULL STACK WEB DEVELOPER

## PROFESSIONAL SKILLS

HTML/CSS	● ● ● ● ● ● ●
JAVASCRIPT	● ● ● ● ● ● ●
REACT	● ● ● ● ● ● ●
REDUX	● ● ● ● ● ● ●
RUBY	● ● ● ● ● ● ●
MATLAB	● ● ● ● ● ● ●

## PROFESSIONAL EXPERIENCE

### GRAPHIC PACKAGING INTERNATIONAL

Project Engineer I | Jan 2018 - Aug 2018

- Introduced a streamlined process to shorten machine and part release by 40% using VBA programming
- Utilized engineering standards to design custom parts using SolidWorks modeling to enhance machine system
- Collaborated with customers on-site, installing machine upgrades to run new products and system integrations
- Troubleshoot machines to improve functionality and/or safety by working with a service team to find solutions
- Quoted part kits for buyers interested in running advanced processes based on labor, material, and assembly cost

### ELEKTROCOUTURE

Engineering Intern | May 2017 - July 2017

- Implemented project timeline from concepts to final production for 5 [wearable technology pieces](#)
- Consulted designers on material selection, microcontroller programming, 3D printing, and circuitry
- Partnered with safety footwear company to prototype different LED integration methods for work boots
- Managed logistics for Berlin Fashion Week events by collaborating with local vendors, clients, and designers

## TECHNICAL PROJECTS

CINEPOP | u: abc, pw: 123

Explore movies to watch & streaming information

- [Live App](#) - Built with Redux, React & Ruby on Rails
- Generated responsive view using React keystroke listeners in search bar & infinite scroll on landing page
- Embedded movie trailers using Semantic UI embed
- Applied React-Router library to dynamically display multiple pages
- Employed multiple API's to provide information about movies, streaming platforms, and cast members

PURSUIT OF POKÉNESS | u: abc, pw: 123

Catch all the Pokémon from every region

- [Live App](#) - Built with React & Ruby on Rails
- Implemented JWT library to authorize and authenticate user login on frontend and backend
- Persisted user's caught Pokémon in backend using Ruby on Rails and PostgreSQL
- Wrote custom algorithms to randomly generate Pokémon on map and determine catch success/fail
- Designed game-like user interface using Semantic UI React and custom CSS animation

### DRESSD

Keep track of all your clothes & outfits

- [Demo Video](#) - Built with Ruby on Rails & Bootstrap CSS
- Integrated MVC design pattern and full CRUD functionality to manage user data
- Created responsive user interface allowing users to mix and match clothes based on inventory

## EDUCATION

### FLATIRON SCHOOL

Full Stack Web Development | 2019

- Javascript, React, Redux, Ruby on Rails

### GEORGIA INSTITUTE OF TECHNOLOGY

Bachelor of Science in Materials Science & Engineering | 2017

- Major GPA: 3.28
